SPRING 1928

FOR SEED DEALERS AND NURSERYMEN

JAMES VICK'S SONS

ROCHESTER, N. Y.

"The Flower City"

D. N. Shoemaker

D. N. Shoemaker

For Dealers and Nurserymen Only

To customers of good credit invoices for seeds, plants and bulbs, with exceptions hereafter noted, will be subject to 1½% discount if paid within 10 days of date of invoice, or net 60 days. Grass, clover and farm seeds, onion sets, potatoes, fertilizers, insecticides and sundries are not subject to discount, terms being net cash. All shipments f. o. b. Rochester. Satisfactory references required from new or unknown correspondents. Ledger accounts cannot be opened for first orders of less than $5.00; such orders should be accompanied by cash.

Perishable goods will be sent C. O. D. only when a partial remittance is received in advance as a guarantee of acceptance of shipment, and all C. O. D. charges are to be paid by purchaser. Prices herein are subject to change without notice. A nominal charge extra for bags and boxes. Retail packets, except novelties, which are net and packets specially priced herein, in quantities of less than 10 are subject to 30% discount; 10 or more 40% discount; 100 or more 50% discount from our retail catalogue prices.

Ounces and fractions thereof of vegetable seed 30% discount from retail prices. Flower seeds by the ounce and pound and Vegetable seeds by the pound and bushel are priced net in the body of this catalogue,—¼ pound at the pound rate; ¼ bushel at the bushel rate. Smaller quantities at a slight advance. No quantity of seed packed from bulk for less than ten cents. When smaller quantities are required use the five or ten cent papers, taking advantage of the discounts indicated above.

Purchasers will please send explicit shipping instructions with each order. Where no such instructions are given we shall exercise our best judgment in the matter; but when goods have been so delivered at the freight or express station, in Rochester, in first-class condition, addressed as ordered, we disclaim all responsibility for any accident, damage, or delay en route. When goods are desired sent by mail, postage must be added at the rate of 10c per pound, otherwise we will deduct enough from the order to cover postage or add the postage to invoice as the case may require.

We give no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any seeds, bulbs or plants we sell, and we will not be in any way responsible for the crop. If the purchaser does not accept goods on these terms they are at once to be returned and any payments made in advance for same will be refunded.

MUSHROOM SPAWN

		Per Case 12 Bottles
The new method of growing Mushrooms is so easy and so generally successful, the popularity of this food has increased enormously. Bottle spawn is the most prolific ever developed. Simply break the bottle and plant small pieces an inch deep a foot apart each way in rich cool loam soil. To insure fresh stock, we have every order shipped direct from the laboratories where this spawn was scientifically developed. Per bottle	$1.00	$10.00

PULVERIZED SHEEP MANURE

We believe we have the best brand of Pulverized Sheep Manure obtainable. It is strictly a pure animal product with the addition of no commercial fertilizer to bring it up to high chemical analysis. Our sheep manure is composed of cleanings from wool and contains a minimum amount of dirt and foreign matter which is so common in the ordinary stock yards products. It also has an oily quality not found in the ordinary sheep manure. This makes it much more pleasant to use, making it less dry and powdery.

Sheep Manure is used by all florists and growers both for indoor and outdoor use. We use it in our own greenhouses in large quantities for mixing with potting soil. For outdoor use it is very convenient, comparatively odorless and produces quicker and better results than stable manure without the unsightly appearance of the latter. Per 100 lbs., $2.50; 500 lbs., $12.00; 1,000 lbs., $22.00; 1 ton, $42.00.

PEAT MOSS

For Florists, Nurserymen and Gardeners

This is decomposed vegetable matter thoroughly dried, odorless, free from weeds and disease and granulated to convenient size. This material is well known in Europe, having been used for many years by successful growers, and has already found great favor in this country by the best growers, especially as more and more attention is being paid to the fact that productive soil requires large amounts of humus to replace that which is taken off in crops. Granulated Peat Moss furnishes humus in its purest form without the addition of disease spores and fungus which is found in all manure. It absorbs and retains ten times its weight of water, and the mixing of this material with potting soil and the addition of a little complete fertilizer will produce as good results as the very richest manure without the dangers from bacteria and disease. For mulching around evergreens, rhododendrons, shrubbery of all kinds, it is unexcelled. Packed in large bales about 21 x 40 inches, covering about 240 square feet, one inch deep, $3.50 each; small bales for trial purposes, $1.00 each.

Nitragin

The original soil inoculator greatly improved. For all legumes including Alfalfa, Clovers, Soy Beans, Vetch, Sweet Peas, Peas and Beans. Inoculated seed crops are soil builders.

Garden size for Peas, Sweet Peas, Beans and Lima Beans (three in one) in neatly designed counter display cartons, 12 to a carton.

Price to customer 20 cents. Dealers prices, dozen lots $1.68, ½-gross $9.36; gross $17.28.

Sell Semesan-

It makes seeds healthy

Gardeners, florists and farmers need it to prevent blight, mildew, rot, rust, scab, wilt, anthracnose fusarium rhizoctonia, etc., which needlessly rob them of from 10 to 90 per cent of their crops. It is harmless to seed but highly effective against seed and soil diseases of hundreds of varieties of flowers and vegetables as well as potatoes, corn, oats, wheat, barley and other farm crops. Nurserymen use it on fruit trees, ornamentals, evergreens and perennials.

When you sell Semesan, you

(1) Increase your profits.
(2) Give seeds a better chance.
(3) Improve your customers' crop prospects.
(4) Add to their productive capacity and to the value of their land.
(5) Increase the wealth of your community.
(6) Win confidence and repeat orders.
(7) Again and again increase your profits.

Semesan treatments are easily and quickly applied. The cost is slight, only ¼ to 1 cent per lb. of seed; the danger to seed none; the beneficial results almost certain.

Semesan usually increases germination of seed, and vigor of roots, stimulates plant growth, increases quantity, improves quality and hastens maturity of the crop.

In the spring it gives treated seed the advantage in late wet weather. In the fall it may make all the difference between an early valuable crop and a late low priced crop or even a total loss from frost.

Semesan is the most effective preventative and check of "brown patch" which in a single night can ruin the turf on golf greens, fine lawns, tennis courts and recreation parks.
